To: Lester Snow, Executive Director
 CALFED Bay-Delta Program
 1419 Ninth Street Suite #1155
 Sacramento, Ca. 95814

Dear Mr. Snow,

I would like to go on record as objecting to these parts of the impact statement put out by the CalFed Program.

1. I object to Alternative #3 (Peripheral Canal). All water users must draw from a "Common Pool", Separating the Delta from the Sacramento river flows will only degrade our water further.
2. "Retirement" of productive Delta farmland must be removed from the plan. S. J. County's food and fiber are worth \$1.4 Billion,(1997). We have public wetlands and a county wide multi-species habitat protection and open space plan of our own.
3. You must add more offstream storage-enough to meet California's needs for the future.
4. The only way to revive the fisheries is to include increased releases into the San Joaquin River from the Friant Dam.
5. The plan must include more funding and encouragement for municipal water treatment facilities. Coastal Communities must invest in water reclamation and desalting facilities within their spheres.

Thank-you

Chris Hunefeld
